INDUSTRIAL

01

Who are we?

We are a specialized **technical distributor** of products for **production, maintenance, and industrial safety**, as well as solutions which make your procurement simple, efficient, automated, and above all, digital.

 <p>1876 Foundation year</p>	 <p>3.200 Clients</p>
 <p>Catalonia and France Area of activity</p>	 <p>ISO 9001:2015 Quality policy</p>
 <p>20 milion Turnover</p>	 <p>Own Transport service</p>

Who are we addressing

We target industrial manufacturers who use C Parts* both in their production and maintenance and need a supplier who can bring them improvements in the management of their purchases and supplies.

**C Parts: low-cost articles with secondary importance for the final product, but are indispensable for the manufacturing process.*

Our objective

Our goal is to enhance your competitiveness by streamlining and automating your procurement processes (product selection, purchasing, and replenishment).

➤ We are a reference in Catalonia in our sector

More than 3,000 professional clients trust our services.

➤ Close to you

Customer Service with more than 15 people in the office. More than 20 sales technicians to visit our customers and detect their needs.

➤ Official Technical Service 365 days / 24h

Lincoln in welding service. We can also certify your welders. Kaeser in compressors and air installations.

➤ Distribution agreements with leading manufacturers worldwide

24 hours for over
30,000 in-stock
products.**

Delivery in
7 days for over
300,000 products
in the catalog.

03

Services

Customer catalog

We will have the materials you need in stock, we will code them according to your requirements, and we will have a prearranged price.

Industrial dispensers

Reduce up to 40% of the cost and consumption of PPE, tools, and maintenance products. You only invest in the articles you use.

Kanban and Manxa App

Automatic ordering through mobile devices and at the same location of material usage.

QR code label and catalog

Manxa creates catalogs and panels with QR labels so that you can place orders directly from the office or the factory, ensuring that the materials are easily located and organized. The labels can be placed wherever you need them!

Quick purchase

Direct purchase by 'copy/pasting' or importing directly from a .csv/Excel file.

Automation of document workflows

Exchange of documents (orders, invoices, delivery notes, etc.) directly between the client's computer system and the Manxa computer system.

Digitization of incoming materials

Automatic material entry to your warehouse through barcode scanning.

Customized kits

Product bundling of different brands and ranges into a single reference.

Online store

Our catalog of stock products, with over 30,000 references, available for online purchase, 365 days a year, and 24 hours a day.

manxa FERROS

We are a distributor of steel products specialized in the transformation and efficient supply of these materials.
